the facts

Our 'Soft Touch' Technology

All our cotton-blend plain-dyed sheeting undergoes an extra finishing process to make it cuddle-soft! The 'Soft Touch' process involves applying a special softening composition to our fabric, then heating it at extreme temperatures to **bond this softening treatment to the fibres**. The result is a superior silky-soft fabric that not only meets our strict ISO 9001/2000 quality standards, but is protected from shrinking and fading too!

wow! deal

Buy a plain-dyed sheet set (pg 37) with any bedding set (pgs 4-48) and **save R50 on your order!**
